AMAN JAISWAL

MERN Stack Developer | Full Stack Developer

+91 9839037381 | aman123.vir@gmail.com | Campierganj, Gorakhpur, UP

Portfolio | GitHub | Linkedin

PROFESSIONAL SUMMARY

MERN Stack Developer with strong problem-solving skills in Data Structures and Algorithms using C++. Experienced in building responsive and scalable web applications using React.js, Node.js, Express.js, MongoDB and RESTful APIs. Passionate about developing real-world solutions and continuously improving technical expertise.

TECHNICAL SKILLS

Programming: C, C++, JavaScript , Python
Data Structures: Data Structures & Algorithms using C++
Frontend: React.js, HTML, CSS, Tailwind CSS
Backend: Node.js, Express.js, RESTful APIs
Database: MongoDB, Mongoose, Qdrant
Authentication: JWT Authentication, Clerk Authentication
Cloud / Services: Cloudinary, ImageKit.io, Inngest
Tools: Git, GitHub, VS code, Vite
Currently Learning : AI/LLM Integration, RAG, LangChain

PROJECTS

SkillBridge | AI-Powered Learning & Competency Platform | GitHub Repository

Tech Stack: React.js, Node.js, Express.js, MongoDB, LangChain, RAG, LLMs, RAG

• Developed a student-focused learning platform featuring skill assessments, skill-gap identification, personalized learning paths, and progress tracking.

• Implemented MERN stack architecture with student authentication, REST APIs, and MongoDB data management.

• Integrated AI-assisted learning support using RAG to generate contextual answers from curated learning documents.

• Built a responsive dashboard for monitoring student performance and recommending relevant learning resources.

Linked-Up-Media | MERN Stack Social Media Platform | GitHub Repository

Tech Stack: React.js, Node.js, Express.js, MongoDB, Clerk, Inngest, Tailwind CSS, ImageKit.io

• Developed a full-stack social media platform using the MERN Stack with a responsive and modern user interface.

• Implemented secure user authentication and authorization using Clerk Authentication.

• Built core social features including posts, stories, likes, user profiles, connections, and one-to-one messaging.

• Integrated ImageKit.io for efficient image upload, storage, and management.

• Automated story expiration using Inngest background functions, deleting stories after 24 hours without affecting application performance.

• Designed and developed RESTful APIs with Express.js and MongoDB (Mongoose) for scalable backend operations.

RAG PDF Assistant | AI-powered Document Intelligence Platform | GitHub Repository

Tech Stack: React.js, Node.js, Express.js, MongoDB, LangChain, Google Generative AI Embeddings, Qdrant Vector Database, LLMs

• Built a full-stack RAG application enabling users to upload PDFs and ask natural-language questions to retrieve context-aware answers from document content.

• Implemented document processing, text chunking, embeddings, and semantic search using LangChain and Qdrant Vector Database.

• Developed persistent chat sessions with conversation history storage, retrieval, and restoration across page refreshes.

• Created a responsive interface with PDF management, document deletion, and interactive AI-powered question answering.

EDUCATION

Bachelor of Computer Application (BCA) | 2024 - 2027

Buddha Institute of Management, GIDA, Gorakhpur

Intermediate | 2022 - 2024 | 89%
Bapu Inter College, Pipiganj

High School | 2020 - 2022 | 80%

Bapu Inter College, Pipiganj

TRAINING & CERTIFICATIONS

• Data Structures & Algorithms in C++ - ApnaCollege

• Full Stack Web Development (MERN Stack) - ApnaCollege

• MERN Stack Development - Summer Training, DigiCoders Technologies Pvt. Ltd. | Jun 2026 - Jul 2026 | 45 Days | Grade: A++

ACHIEVEMENTS & HACKATHONS

• Participated in a national-level hackathon and developed a Service Provider platform connecting clients and workers.

• Presented research paper on “Role of AI in Startup Innovation” at National Conference (ICAET-2026), organized by Buddha Institute of Management.
